

Environmental Policy Statement
April 21, 2008

Revised Date: March 17, 2017

Newport Sand & Gravel Co., Inc.

Policy Statement

Newport Sand & Gravel Co., Inc./Carroll Concrete Co. believes that a proactive approach toward conserving and enhancing natural resources is consistent with our Company's core values. We recognize that efficient resource use and environmental conservation is vital for the continued success of our business. As a Company, we strive to act as responsible stewards of the environment and are committed to continuous improvement.

We recognize that environmental protection is the collective responsibility of government, businesses, individuals and communities. We are committed to implementing efficient and effective practices within our organization in order to reach this goal.

Company Commitments

In pursuit of this policy, Newport Sand & Gravel Co., Inc./Carroll Concrete Co. commits to the following:

- Take responsibility for achieving and maintaining compliance with environmental regulations. Be responsible to local environmental needs.
- Conduct our operations in a manner that is environmentally responsible and befitting a good corporate neighbor and citizen.
- Implement, maintain, and continuously improve an effective environmental management system.
- Strive to prevent and reduce environmental impacts of our operations.
- Promote resource sustainability by seeking ways to reduce energy and material needs and increasing the reuse and recycling of materials.
- Communicate and advance the use of environmental best practices throughout the Company.
- Through training, develop our employees' awareness of environmental protection including their responsibilities and obligations under this policy.

This policy applies to all employees, divisions and operations throughout the Company. The full participation of everyone is expected and necessary in order to meet the commitments set forth in this policy.

Both this policy and our performance will be reviewed periodically. This policy and a link for submitting environmental questions and concerns will be available via our website at www.CarrollConcrete.com.

Robert M. Carroll
Chief Operating Officer
